ELECTION IN RESPONSE TO RESTRICTION REQUIREMENT

Bellevue, Washington 98004

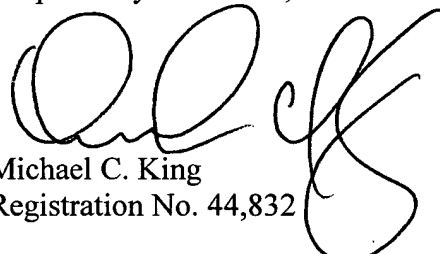

June 11, 2004

TO THE DIRECTOR OF THE PATENT AND TRADEMARK OFFICE:

The following is in response to a Restriction Requirement mailed May 11, 2004, in which the Examiner restricted the above-identified patent application. The Examiner asserts that the pending claims are directed to four patentably distinct inventions, including an Invention I (defined by Claims 2, 4, 6, 7, and 8) directed to a plate with particular vanes (i.e., an impellor), an Invention II (defined by Claim 5) directed to a plate with vanes in a housing, an Invention III (defined by Claims 9-38) directed to an impaction sampler where separation occurs upon vanes, and Invention IV (defined by Claims 39-55) directed to a method of making an impellor type impactor.

In response to this Restriction, applicants hereby affirmatively elect Invention III (directed to the recited apparatus in Claims 9-38), without traverse.

Respectfully submitted,

Michael C. King
Registration No. 44,832
